Sage ERP X3 , simple to use, rapid to deploy and cost effective

◆ Sage ERP X3 a broad functional scope

Sage ERP X3 (multi-legislative, multilingual, multi-currency solution) integrates everything to make the company more efficient : analysis and reporting, financial accounting and management control, operational management (production, purchasing, sales, inventory...).

Sage ERP X3 offers application extensions to automate even more processes with ISV Alliances (Independent Software Vendor).

A technological platform designed for business

- Flexible, open architecture, Web Services oriented
- Pre-setting for quick implementation
- Integrated report-publishing and business intelligence tools
- Web Services oriented

◆ Sage ERP X3 : tangible benefits for business

- Run all of the company's activities
- Provide 360° visibility
- Encourage collaboration and coordination
- Seize new opportunities for growth
- Improve customer satisfaction
- Reduce costs and lead times
- Guarantee a fast return on investment

◆ Sage ERP X3 : simplicity, adaptability and openness

A solution designed with the user in mind

- Navigation made easier by interactive graphic processes
- A portal for each role with advanced performance indicators
- Full integration of office tools
- Powerful customization tools for increased flexibility

A solution built for the Web

- Accessible in real time through a simple Web browser, both internally and off-site
- A Web 2.0 portal for easy access to data from the ERP solution and from external applications
- Facilitated integration of your branches, subsidiaries and outside parties
- Easy interaction with other business applications

The 3 advantages of Sage ERP X3

- 1 Simple** : integration of many graphic components, making it intuitive and user-friendly
- 2 Rapid to deploy** : easy to set up and easy to learn for faster implementation
- 3 Cost effective** : highly competitive cost of ownership
